## **BIC ADVANCE** IN DALY WEST

Amidst Much Excitement the Stock Sold Up to \$13.80.

EAGLE & BLUE BELL STRONG

Daisy Stronger Northern Light Stationary - Lower Mammo h a Little Weaker-Sunbeam Active.

#### community of the same of TODAY'S METALS:

SILVER 59% LEAD, \$4.57% CASTING COPPER 15%

The star stock in the pit today was Daly-West which recorded its first sale at 13.10. From this price it rapidly went by jumps and bounds to 13.80, the price of the last sale. The advance since yesterday amounts to something like 1.30 a share and the stir in the pit when the stock was called reminded one of the palmy days of a little over a year ago. The stock closed much weaker, being offered at 13.50 without any takers. In all 1,050 shares was traded in, but as some lots were bought and resold it does not indicate the number of shares were on the market.

Daisy advanced to 1 cent, Sunbeam was traded in at 221/2 at the outset. It them strengthened to 24, but closed

Eagle and Blue Bell made some advances on the strength of a new strike, West Morning Glory, recently listed, sold at 1 cent.

Tetro was traded in at 4%. Petro went

t 36% and Galena participated at 11. Closing quotations were as follows:

#### MARKET SHOWS STRENGTH

The Bear Faction Causes a Rapid Fall in

Railway Stocks Hold Their Prices Well-Live Stock and Prodnce Sirong.

New York, Feb. 27.-The market

showed strength in the majority of cases in spite of the break in Third Avenue, which dropped several points at a time to 63. The general list was assisted by the buoyancy of the London market on the war news. Pacific Mail advanced a point. The bear faction resumed operations in sugar, tobacco and the New York tractions with marked confidence and clipped off points in prices of most of them on single transactions. Third Avenue went down 10 points in half an hour to 611/2 before its headlong career was checked. Metropolitan yielded 4%, tobacco 3, and sugar 24. Despite the rapid fall in the specialties there was no marked response to the rallroad stocks. Covering brought the list up sharply here and there but the market was feverish and the active pecialties yielded to the lowest before I o'clock. An active demand followed il o'clock. publication of several encouraging statements of earnings, including those of the Erie and Southern, maximum advances from the lowest in the railroads being a point. In the specialties the rewas more pronounced. covery avenue touched 65 and the other leaders going up 1 to 2. Just before noon sugar was forced down again to the lowest and the buying movement else-where paused. The bear raid was pushed to its limit in the last hour. The net decline in Third Avenue was ex-tended to 29 points and other specialties declined largely. The shorts then rushed to cover, rallying Third Avenue 4½; air brake 5, and other weak spots 1 to 3½ points. The market became dull at the rally and Third avenue made a last downward plunge to 51. Sugar mounted to near 1.06 in the final deal-

The closing was feverish and irregular at mixed net changes.

The bond market held steady on a fair

## RUNS WELL IN YELLOW METAL

Car of May Day Ore Shows 1.69 Ounces in Gold Per Ton.

EAGLE & BLUE BELL STRIKE

Conditions at Geyser-Marion-Buckeye Stock-Utah Shipment-The Pony District.

The returns were received today from the May Day shipment which reached town last Friday and will prove very gratifying to those who have invested in the May Day in the hope of one day receiving returns in the shape of dividends. It was stated that the sampling of one car out of the three shipped might show more than an ounce of gold per ton. The fact is, one car weighing almost 28 tons contained \$8.2 per cent lead, 26.3 ounces silver, and 1.69 ounces in gold per ton and was settled for on a basis of \$53.82 a ton, or almost \$1,500 for

The other two cars netted the company \$29.11 a ton owing, it is stated, to the amount of quartz contained in the

ore, which was roughly sorted. The gold returns are important in view of the fact that excellent gold values were recorded of picked samples from the Yankee Con, strike on May Day ground, which seems to point to the existence of good gold values all along the May Day vein.

#### A GOOD STRIKE

Reported in the Eagle and Blue Bell in Tintic District.

Samples of fine looking rock were seen today from the Eagle & Blue Bell of They represent the kind of ore lately encountered in the extreme south end of the property. About 5 feet of ore is now exposed, which is very similar in appearance to that in the old Blue Rock or Centennial-Eureka. An average sample shows 34 ounces in silver, 3.7 per cent lead and \$20 in gold per ton.

#### THE LOWER MAMMOTH.

New Board of Directors Organized Yesterday Afternoon.

The recently elected directors of the wer Mammoth Mining company met yesterday afternoon and completed their organization by the electtion of A. C. Ellis as president, H. S. Joseph, vice president; Samuel J. Paul, secretary and Josiah Barnett, treasurer The management of the property will be in the hands of a committee consisting of Simon Bamberger, A. C. Ellis and H. S. Joseph.

#### PONY DISTRICT, MONTANA. W. C. McKaskle Talks of a Country

in which Utah Capital is Interested. In speaking of the Pony mining dis-

trict in Montana, where a number of Salt Lake men are securing a foothold, W. C. McKaskle is quoted by the Butte Miner as follows:

Miner as follows:

"The three rich ledges cut in the Clipper and the Boss Tweed about a month ago, news of which was given out to the public lately, are looking better and better as they are opened up.

"They are drifting both ways on the ledges," said he, "and they look better all the time. I think the Boss Tweed and the Clipper will prove about the biggest gold mines in Montana.

"The Clipper is about the deepest gold mine in the State," Mr. McKaskle said. "It is on the side of a mountain and there is a drift in from the base of

and there is a drift in from the base of the latter about 2,000 feet. The mountain is very steep and the tunnel gains about a foot depth from the surface every foot it goes in; hence it has opened the mine at a depth that it would require a shaft about 2,000 feet deep to reach. The tunnel has advant-ages over a shaft as a means of drain-age and the Clipper and the Boss Tweed are worked through it and other

"The three ledges in the mines are of them at the surface in the mines are parallel, and run east and west. One of them at the surface in the Boss Tweed is 30 feet wide, and it widens as it goes down. The ore assays from \$5 to \$200 a ton in gold in the part of the ledges cut by the long tunnel and the prospecting drifts. prospecting drifts.

"They have ore enough for years of working," sald Mr. McKaskle. "They know what's above and they're sure of a big thing. In most of the gold mines in Montana the ledges get poor as they go down, but these ledges get better.

"The mines at present lack means of transportation and milling facilities. They are two miles from the railroad, and the ore has to be hauled to the railroad by wagon and shipped to Butte and elsewhere for reduction. There is a 10-stamp mill at the mines but it would not be able to crush the ore that comes out of the drifts. However, there are plans for building a railroad from the mines to the main line this summer, and a Salt Lake company is getting ready to construct a big concentration plant at Pony. So that before long there will be every facility for handling the ore at the mines and the owners will be able to work the latter on a large scale. One worth \$20 a ton is

### THE CLEVELAND PROPERTY.

Directors are Scheduled to Leave on a Tour of Inspection Tomorrow.

now being put on the dump."

The directors of the Cleveland Mining company are scheduled for a visit to the company's property in Tintic tomorrow. Now that the late assessment is all in, it has been dertemined to make another search for the clusive ore body. Whether or not drifting will be continued from the Sloux-Ajax tunnel, which runs through the Cleveland claims a distance of 800 feet, has not been decided. Some drifts were run from the tunnel several years ago and after sizing up the situation to-morrow a force of men will be started

## WEST MORNING GLORY.

The Shareholders Met Last Evening and Elected New Directors.

The annual meeting of the shareholders of the West Morning Glory Mining company was held last evening, at which, after the reports were read, the following directors were elected to serve for the ensuing year: Henry Dinwoodey, A. J. Weber, C. E. Bowdell, W. F. Smith. The new board will elect officers in a few days.

The report of Manager Smith showed that at a depth of 100 feet in the shaft a drift had been run in ore a distance of past three years.

20 feet; the ore then pinched for about 30 feet but has not been encountered again at a distance of 75 feet from the It was also stated that some ore

will be stoped and a shipment made in the near future.

The report of the secretary and treas-urer showed that the company will have a balance of about \$500 in the treasury when the outstanding claims against the company are paid.

#### THE GEYSER-MARION.

Nice Body of Ore Exposed in the Upraise from Mill Tunnel.

Vice President A. T. Moon reports a nice ore body developed as the result of the recent strike in an up-raise from the mill tunnel level of the Geyser-Marion of Mercur. The grade of the ore is not exciting but gratifying as it runs from \$2.80 to \$14.00 in gold and is easily treated. A fine body of ore is being worked near Capt. De Lamar's Brickyard mine, which is a part of the Golden Gate property. The ore runs up to \$8.00 a ton. In spite of the beliefs of others that the Geyser is worked out Mr. Moon believes that the property will yet give a good account of itself. The results this year have not been entirely satisfactory owing to repairs at the mill and the freezing of the pipes and other things. The mine has not quite met the working expenses thus far this year, in spite of the fact that the working force has been reduced nearly one half. A much better show-ing is anticipated by Mr. Moon as soon as the warm weather comes.

#### BUCKEYE REGISTRATION.

No Evidence that Briant S. Young has Exceeded His Prerogatives.

The work of registering the stock certificates of the Buckeye Mining company is still progressing. The number registered at present slightly exceeds the authorized issue of 500,000 shares. This, however, is not considered proof that Briant S. Young has erred in issuing more stock certificates than the au-thorized number, as some of those now registered have been sold for delinquent lor says there is at present no direct or indirect proof that former Secretary B. S. Young has exceeded his preroga-Meantime with the lost stock book still buried in oblivion prepara-tions are being made for a meeting of the shareholders at an early day.

#### Shipment from Utah.

The Utah mine of Fish Springs reported on the market today with a 23ton shipment of high grade silver-lead ore. The ore is of about the same grade as other recent shipments, which have contained from 40 to 60 per cent lead and between 100 and 200 ounces in silver per ton. An increased output has been looked for now that drifting off the 500-foot level of the new shaft has been started. But one of the directors states that a great deal of dead work has yet to be done in order to connect with the ere bodies exposed in the old workings. Yet on the face of this fact it is anticipated that the "velvet" will be again forthcoming at an early day,

#### Star of Pine Canyon.

A consignment of gold dust weighing about 50 pounds reached the rooms of the Consolidated Kansas-City smelter and refinery today from the Star gold mine of Pine Canyon. The value of this batch of cyanides is not known but the last over a trial of the control of but the last one netted \$16 a pound. It is stated by insiders that the compan's affairs are still badly mixed, and of the pessimistic ones view the Star's chance of weathering the present storm as being rather slim. . The force at the mine has been materially decreased lately and an extra effort is being put forth to make this promising little mine At the same time an effort is be ing made, it is said, to secure the control from some of those who have dominated its affairs in the past. But the doubts felt by many of the old stockholders is best shown by the fact that just before the recent delinquent sale the stock sold at a small fraction of a cent per share.

### MINING NOTES.

The Ajax of Tintle maketed four cars

The Conkiln sampler reported four cars from Tintle today and one from Fish

W. H. Cunningham of Capt. De Lamar's Salt Lake office left for Califor-

Ten cars of ore were on the market today from the Centennial-Eureka of

Three cars of ore were marketed today by the leasers on the Niagara property in Bingham.

The Grand Central of Tintic reported at the side tracks of the sampler today with six cars of ore. An assessment of 5 cents a share has been levied by the West Mountain

Placer company. The Glasgow and Western Exploration company marketed two cars of ore today from its Nevada mines.

The shareholders of the Daly Mining company will meet to morrow to hear the report of the auditing committee. The Taylor-Brunton sampler reported en cars of ore from Tintic, three from

Bingham and two frem Nevada today. John Dern and wife and two daughters left for Europe today on a trip of pleasure that will last several months. The new superintendent of the Daly-

West has not been appointed yet, but this will be done as soon as the au-ditors make their report. Thomas W. Jennings left for the

South last evening. While away Mr. Jennings will visit the Grand Gulch property in Northern Arizona. The Sacramento of Mercur reported

at the rooms of the Consolidated Kan-sas City Smelter and Refinery today with a 400 pound shipment of gold cyan-J. A. Brown is booked for Tintic to-

morrow to look over the Joe Bowers and other properties. Mr. Brown says ore will shortly be shipped from the Joe Bowers. A few men are working at the Red

Wing property and an attempt is being made to put the property on a paying basis. It has run behind during the ast few weeks. Reno Journal: The mining experts from Salt Lake, who thoroughly in-spected the Addie C, mine in Oling-house canyon, and in the northern end of the district, pronounce it in average one of the best mining claims in White

Horse district, R. W. Carrol is back in the city after a sojourn of several months in inyo county, California, where he has been looking after some development work on a gold property belonging to P. L. Kimberly and W. G. Flier, the Pennsylvania capitalists who have large interests in Utah.

Baker City Republican: A wellauthenticated rumor was in circulation today that the Bonanza mine had been sold for \$1,500,000, Eastern capitalists being the purchasers. It was impossible to verify the report. Mr. Hayes, the general manager of the mine, being in the East, and Mr. Gilbert, one of the largest stockholders, is out at the mine.

Grand Valley Times: It will be but a few weeks before mining operations for the season will commence with renewed energy on the La Sals. Every prospector who was in the district last season is making preparations for heavier work the coming summer. Everything indicates now that work can be begun indicates now that work can be begun fully a month earlier than any of the

## A Smoking Car with a College Education.

This is what Elbert Hubbard says in the December Philistine: "There were nine palace sleeping cars, two dining cars and a composite car, the feature of the C. B. & Q. This latter was a new feature to me. It appeared like a smoking car with a college education, arranged with seats similar to a Paris cafe, all done in finest mahogany, severely simple, but very rich. There is a buffet arrangement at one end, and a bouffe arrangement at the other. The buffet end revealed a colored man in white apron and cap who supplies cof-fee, sandwiches, etc."

The Chicago Special, leaving Denyer at 2.50 p. m. for Omaha, Chicago and

Another splendid train for the East is the Vestibuled Flyer, leaving at 10:30 Tickets at offices of connecting lines Ticket Office, 214 S. W. Temple Street,

St. Louis, carries a composite car. Sleeping, dining and chair cars, too.
